

00:04:53 Raiyna Villasenor\_SGA: Today's Meeting Acronym List

AFB - Air Force Base

ASR - Aquifer Storage and Recovery

CLGWL - Chronic Lowering of Groundwater Levels

CoSANA - Consumes, South American, and North American Groundwater Subbasins

Integrated Water Resources Model

DAC - Disadvantaged Community

DWR - the Department of Water Resources

GDE - Groundwater Dependent Ecosystem

GSA - Groundwater Sustainability Agency

GSP - Groundwater Sustainability Plan

NASb or Subbasin - North American Subbasin

PCE - Tetrachloroethylene

RD 1001 GSA - Reclamation District 1001 GSA

SDAC - Severely Disadvantaged Community

SGA GSA - Sacramento Groundwater Authority GSA

SGM - Sustainable Groundwater Management

SGMA - Sustainable Groundwater Management Act

SW or SWD - Surface Water Depletion

WPGSA - West Placer GSA

00:28:47 Barbara Evoy: Can you describe more fully the PCCP goals that are compatible with the water agencies' goals so we can understand the partner's objectives?

00:34:36 Christina Hanson:

<https://www.placer.ca.gov/3362/Placer-County-Conservation-Program> The PCCP program is designed to preserve lands in a reserve system, ensuring land will be managed to support the survival of covered species and habitats / ecosystems they are depended on. Includes Habitat Conservation Plan and County Aquatic Resources Program.

00:34:56 Barbara Evoy: Not sure I understand the alternative approach. The SWRCB permit is based on conditions not necessarily funding. The contrast discussion seems to be focused on funding

00:54:41 Barbara Evoy: Do you feel there is adequate GDE monitoring with the SASb basin boundary? Is there any monitoring of actual groundwater dependent ecosystems?

00:56:54 Barbara Evoy: Wow - that is a hard slide to read. Can you discuss the areas with no overlap of red circles which I am assuming are the influence areas?

01:15:02 Greg Zlotnick (SJWD): Can you send out the slides?

01:18:04 Raiyna Villasenor\_SGA: Hi Greg - yes! A copy of the power point, along with additional meeting materials, will be sent out to attendees and available on the NASb website within the next week or so.

01:19:21 Greg Zlotnick (SJWD): Excellent. Thanks.

01:20:29 Holger Fuerst: Thank you!

01:20:33 Greg Zlotnick (SJWD): Thanks, Trevor and Co, great job
